TRACTORS & DRIVERS:

- If the total amount of insured vehicles exceeds £125,000 on the day, or an individual vehicle exceeds £40,000, then an additional premium will be charged pro rata to those clubs involved.
- If a tractor is loaned from a member or member's parents, then their own insurance company must be advised. There may be a charge incurred but this is at the discretion of their own insurance company.
- All Tractors used to pull the Show Floats are restricted to a 250hp engine. Any tractors which exceed this will result in the Show Float being disqualified, and a fine of £50 imposed.
- Please note that it is a legal requirement for any trailer over 750kg to have some form of brakes. Hydraulic trailer brakes only meet the basic legal requirements when drawn at speeds
- Floats should be towed by a Tractor with a maximum engine size of 250hp and 12 tonnes weight limit, to prevent problems in main ring if wet. If a tractor is over this limit, the float will be disqualified from the competition although it will be allowed to enter the ring. Any float disqualified from the competition will also be fined £50. No other vehicles are to be used to tow the float at the Show. For clarification, this rule also excludes the use of telescopic handlers, even if they meet EU tractor homologation rules or are taxed as an agricultural tractor.
- Drivers may be members or non-members however all must be aged 18+ and hold a FULL DRIVING LICENCE.
